

CITY OF KANKAKEE LEAF PICK UP FOR FALL 2016

On Monday, October 17th and running through Friday, December 2nd, the City of Kankakee will begin leaf pick up for City residents. **Leaf crews will be in your area on regular garbage days.** They will remove leaves left in rows along the back of the curb. As volume increases, we may not get to each resident but will address those piles the following week. Allied Waste will continue to pick up the biodegradable paper bags, dump yard waste cans with leaves and yard waste in them.

PLEASE NOTE:

1. Leaves will **not** be vacuumed or picked up if they are contaminated with liter, garbage or other foreign material according to state law.
2. Branches should **not** be mixed with leaves.
3. Leaves in plastic bags will **not** be picked up.
4. Regular garbage pick up days can be found at www.citykankakee-il.gov

The only way to assure weekly pick up is to use biodegradable paper bags or yard waste cans.
